

GUIDE TO HIV/AIDS RELATED RESOURCES

To help people facing HIV/AIDS take charge of their own health, Project Inform has compiled this list of treatment information, support, and education services. This resource guide can be used as a starting point for finding information locally that might not be available through Project Inform or that serves to supplement what we offer. On pages 7 and 8, you will find a chart to topics of special interest. ■■■ Project Inform does not necessarily endorse or support the information of other hotlines, publications, or websites as we cannot control what's presented by others. We simply wish to help make people aware of their options. For a copy of this guide, contact Project Inform at 1-800-822-7422 or www.projectinform.org.
